I will admit to waiting for the release of *If You Give a Dog a Donut* for a few months now. We have loved this series at our house and all three daughters have listened to and read them at some point. Even though my oldest daughter is a little too old for these books now, she was excited to add this one to our collection. And upon reading it, all of us agreed that this newest book is a good addition to this series, following along in the pattern of the other *If You Give....* books. As a school librarian I will be purchasing a few copies for my library because this one will be a hit with my readers.

Got this for a 5 year old who's learning how to read. Great series of books for a beginner reader - the stories are funny and silly and the picture correspond well with the text so he can look at the

drawings to help figure out the words he doesn't know. The story is fun for any age kid.

*****"This donut eating dog is boisterous and aims to cram as much joy as he can into his day. ..., this makes the young boy who owns him quite breathless in trying to keep up with his pet. This silly puppy is easily enticed by an offer of apple juice and donut, thus ending a perfectly energetic day." --Tatiana*Offering the donut was the initial act that triggered a magical sequence of events, one leading to another, into a day of outdoor activities. It refreshed my childhood play fables, where animals, plants, and forces of nature are actors that assume speech and connect with young kids' imagination, leading to the new game. The sociable dog opens the playtime with picking apples, dressing as a pirate, hunting for treasure, building and flying a kite, returning to the kitchen for a donut bite, dancing his way through the book pages. The involved Children's attention is captivated in this scenario. They enjoy participation, guessing 'what might happen next', as a narrative describing foreseeable interactions unfolding one after another. Winning team Laura Numeroff and Felicia Bond, a pair dedicated to educating our kids through their "If You Give..." series show up with another animated riddle, which requires a word play. Numeroff has given the adorable doggy in, "If You Give a Pig a Party" his own story. If you give a dog a donut, he'll ask for some apple juice ... Kids could imagine that if they give a cat a cupcake, he will ask for topping and sprinkles, which to their delight he eventually spills, starting an engaging activity story that goes on, and on all the way. "If you give a dog a donut, he will ask for some apple juice to go with it. When you give him the juice, he'll drink it all up. Then, before you can say 'Woof'...Dog is off on a backyard adventure!"

The first book in this set, If you give a mouse a cookie was inventive and beautifully illustrated. The follow-ons, if you give a pig a pancake and if you give a moose a muffin were reiterations of the same story, but still charming and well illustrated. This Dog a Donut book just comes across as cheap mimicry, despite retaining the original authorship and artist. Most of the book is very basic and uninteresting actions of a plainly illustrated dog, that is not even set on backgrounds, but a plain white page. This lack of detail and flair really pails in comparison to the vibrant and lively earlier works, lets hope this franchised is retired with this book so we can be spared any further degradation of the series.

I read some of the other books (If you give a moose..pig..etc.) I bought for my 3 yr old b/c my older son loved the pig book when he was small. It's my 3 yr old son's first experience w/me deployed and I sent this to him via . My mom had to read it to him 5 times the first night and tell him no more.

Now every time my mom reads it, she still has to read it to him multiple times. Normally he'll choose another book for reading once we're done, so I know he adores this book.

I was pretty disappointed with this book. We now own the whole series of these books, this being our newest addition. I wish we had borrowed it from the library first because it's really pretty plain and boring. The pages are dull and mostly white, the donut and apple juice thing makes no sense, and the story itself sounds choppy and doesn't make much sense or flow together like the moose, mouse, and pig books. I have a soft spot for If You Give a Moose a Muffin so I had high hopes this book would be just as good as that and the others we own and it just wasn't. My 3 and 2 year old like it but they're pretty easy to please

Another lovely installment in the "If You Give a...." series. These are my absolute favorite childrens books- I give them as gifts at every baby shower or birthday gifts to little ones. This book features an adorable pup and a delightfully predictable adventure. I love watching the littles learn logic and reasoning to understand the story.the illustrations are exactly what you hope for from Ms. Bond, as well.Laura Numeroff never disappoints and as always, I hope there is a next book!

There is a whole series of "If you give a" books. They are all cleverly written and funny. My 2 year old daughter loves them and laughs hysterically when I read them. I enjoy reading them too. The pages are vibrant and the illustrations are beautiful. The pages are also durable and thick which I appreciate as a mom of a tot.Overall, this is a beautiful, fun, and durable book that was well written. I recommend it. Check out "If you give a pig a pancake". (same author) That's our favorite book!
