Customer Reviews

My three and a half year old loves this book. I should mention that he is OBSESSED with clocks, so that helps. The best part is that the clock folds out and then back in so that you can flip the pages and still be able to use the clock. He's already putting the book through the wringer and so far it's holding up pretty well.

Came on time and is a super cute way to teach kids time. Love it.

My 5yo loves Tictety Toc so I know this book is going to be great for helping her learn to tell time!
