How To Make Wargames Terrain

Synopsis

Nothing looks better than a gaming table crammed with exciting scenery. This book shows you how to design and make terrain for wargames. Using simple techniques and readily available materials, you can produce all sorts of models from simple woods and hills to amazing fantasy castles and the cratered battlegrounds of the far future.

Customer Reviews

While it is not the latest version it still is a great book for any one who wishes to try their hands at terrain building. The step by step guides and the full color pix make it easy to read and follow.

This is a GREAT book! It has full color illustrations and gloss pages! It is full of helpful information, techniques and styles for completing your crafting projects! If your looking to get into sculpting or your an old pro this book still has something to teach you. check it out and at this price how can you go wrong?

this book gives you a good view into making wargames terrain. it covers most of the aspects very well and have some nice illustrations.a lot the techniques can also be used in modelmaking and modelscenery construction

good quality
