Customer Reviews

My children loved Gravity Falls and now love this book as well. The story line follows the first three episodes of the series in graphic novel form. The makers have done a nice job covering the animated show into this format. My 6 year-old has read it several times now and continues to laugh at both the jokes and the wonderful art.

My 10 yr old daughter loves Gravity Falls & LOVES to read. This is a substantial book, but she read it in one sitting (she's very advanced. .and fast). She c said it was great...just like being in an episode. She's read it cover to cover 3x & enjoyed it each time.

My daughter still loves reading the book a few months later.

Fantastic! This book contains the first three episodes of Gravity Falls in graphic novel form. It's high quality as well.

Not exactly what I imagined but still very pleased and my daughter will love getting this on her 8th birthday!!

Kids loved it; they're big fans of the show!!! Anything that keeps them reading.

Anybody with Gravity Falls fan in the family will appreciate this.

Son and daughter enjoyed this book.
