Customer Reviews

This is a great coloring book! It is a fun, kinesthetic method of learning and enjoying 500 years of great paintings. The drawings are not overly detailed, enabling you to use your imagination in coloring with just enough detail to do justice to the painting. The stories are brief but entertaining. You are given information about the painting, including the nationality and style and date of the author as well as where the painting is now located. This is very useful in searching for more information on the painting. Highly recommended to anyone who would like to expose their children (or themselves) to great art in a fun and relaxing way! A great springboard to learning.
