Hi! I hope you enjoy my review of the Underwater Ocean Coloring Book. Summary: Beautiful images and good quality.

Nice big pictures, heavy white paper, great quality. It is so rare to find a coloring book these days that doesn't include "activities", which are not appropriate for 2 year olds. This is just pictures. Not too detailed.

Book is a little thin and it felt like someone just took all the colors out of an illustration instead of actually creating pictures to be colored in. Older children would do better coloring in some of these smaller spaces.

Awesome coloring book. The images are large with plenty of room for kids to use their imagination. Fun pictures, thick pages - he's even used watercolor paint on it! Excellent buy - I highly recommend it!

Celebrates the ocean fish and animals. Our four-year-old boy loves the pirate shark; he sat down with the book right away. Small details and big spaces allow for many ages to enjoy! We used markers, more than crayons. This book and a pack of fresh markers would be a great gift!

"Lilt Kids Coloring Books" nice selection of books - great for little ones - was enjoyed by 2yr to 6yr olds

I received this coloring book, and my girls went crazy. They were so excited, and colored several pages at once. The drawings were very cute, and easy for them to color. Thanks :)

Great pictures and very clear for my daughter to color. Buuuuuut, I thought it was very small for the price. I was thinking it would have more pages to color.
