Customer Reviews

This is an awesome book to have for any My Singing Monsters fan. Only gave it 4 stars because it doesn't include the rare monsters in terms of how to breed them, but includes all of the other monsters, some of their likes, how to breed them, and other information on each one. LOVE IT!

I bought this for my 7 year old son, who wanted to give it 4 stars. It's a cute book with color illustrations, but it's far from complete--it doesn't list the monsters' secret likes/monster liked, the amount of coins/shards a monster can earn, or all the combinations that can breed a specific monster. An older child or adult could easily find more complete information quickly on the Internet. However, for our purposes, we still find it useful.

If I was just starting My Singing Monsters this would be a very useful book. I was hoping it was going to include the Wubblins. With that being said I enjoyed reading through the whole book and would recommend it.

Too much \$\$ for a small book!

It told me. What I was doing right but no shortcuts on. Getting. Special ones. I wanted. To breed when you don't. Have the diamonds. To buy them or to light all the torches with

Great! It helped to take some of the guesswork out of breeding and it does help with understanding some of the tricks.

This guide is a must for My Singing Monster gamers. Very complete and informational. Gives great ideas and helpful tips.

Oh my goodness what a nice resource. Great graphics, nice quality paper. Tk u.
