Age Range: 4 and up

Grade Level: Preschool and up

## Customer Reviews

My 3-year-old is learning so much from this book. It has a little bit of everything in it: tracing, writing, math, colors, scissor skills. I just wish it was bigger or the person who gave it to me would have given me 10 more just like it! My child especially loved the scissor exercises. We are getting the Carson Dellosa "Scissor Skills" book soon! This book has really improved her control and patience in basic motor skills.

There are only a few pages to this workbook but it's actually jam packed with a great variety of

activities. It's actually thin enough to throw into my purse and to take it to restaurants with us. My 3 year old daughter really enjoys working in it. It's not just filled with tracing letters and writing numbers, it has matching, counting, connect the dots, patterns and more. I have bought many, many, many workbooks from Amazon and Costco and I would highly recommend this one.

I teach my child preschool at home because sending him to a public one would cost us an arm and a leg. I love this book, it helps him with his letters, tracing, scissors skills, it's a all around great book. My 2 & 4 yr old love it.

Bought several of this brand of workbook and they have been wonderful for my son. He was two when we started these and some of the harder ones he is doing now at 3. I plan to continue to buy this brand as it looks like some of them go up to 6th grade. They are cheap enough to where once he is done using them it isn't a problem to order a replacement. he really enjoys the gold stars they came with and having them applied to his completed pages.

This isn't a bad book, it's nice quality and has a lot of different activities, but I rated it lower because it's supposed to be for preschoolers and I find it way too advanced so far for my 3 year old. She's bright and knows her alphabet, can count, knows colors, shapes, etc. and we've done other workbooks and flashcards that she gets but this was way over her head. Maybe should be listed for 4 or 5 year olds.

I purchased this for my 3 1/2 year old. He loves the bright colors. The pages are not perforated but do tear out easily. Great for fine motor skills with several cut and paste pages. Includes lots of gold stars too!

I got this book for my three-year-old who wanted a workbook to play with like her brother's. It looked like it would exercise some basic letter recognition skills and teach her enough to move on to a more complicated workbook. Instead, I found a book that, while it does cover some basic skills, requires a pair of scissors and a glue stick and hovering-level adult supervision. Her brother does love to help her with the workbook, and they do have fun discussing it, but it was absolutely not what I was hoping for.

Pre schol 3 1/2 year old Twins love it. Their mother says they want to use the book every day - Only

problem is that I bought only one book for them to share. Guess I should have bought two of them :)  
:)
