Little Blue Truck Leads The Way Board Book

Synopsis

Zoom! Woeeee . . . ! "Make way!" The big city sure is a speedy, noisy place for a country truck like Blue. Everywhere Blue looks, he sees buses, police cars, taxis, vans, a street sweeper, and even the mayor's limousine. With everyone pushing to be first, soon there's a giant traffic jam! But even a wrangle-tangle is no match for Little Blue Truck, who comes to the rescue in true Blue style. A Brimming with bright colors, sounds, and city energy, this adventure makes working together and taking turns more fun than ever. Now with a free downloadable party kit!

Customer Reviews

I bought this book for my son as soon as it came out because we have the first Little Blue Truck book and love it. I think this one falls short. It is not half as charming as the first and really a little boring to read. After we read the first book my son was reading along with us (as best he could at 2 1/2) and doing all the animal sounds. This one he doesn't even want to pick up a 2nd time. The illustrations are still nice and the moral is OK, but overall it's about grumpy city cars and doesn't have the same cute flow as the first. I'd pass.

A lot of the reviews here say the same thing: "not as good as the first book". In a sense, I agree--the moral's not as profound and the words aren't quite as fun to read without animal sounds. That said, my son (a young toddler) adores this book. He's the sort of boy who waves at buses and trucks, loves to see heavy machinery at work, and constantly spins the wheels on his toys. Once we

got this book, with its gorgeous pictures of skyscrapers (reminiscent of New York City) and different kinds of vehicles, my son literally threw the first book aside. His favorite page shows a traffic jam--go figure. In sum, my son and I like this book, but how much your child enjoys it will depend on his interests.

I bought this book for my 15 month old after my entire family fell in love with the little blue truck and all the animal friends in the first one. But this book fell short in all aspects. The book is honestly a little rude. I don't want my kids first words to be "shove on shorty". It has the same sort of flow as the first book but honestly towards the end i'm just begging for the book to be over already. I guess it serves a purpose of teaching kids one at a time, take turns sort of thing. But the book really isn't that great. It reminds me of movies that have awful sequels and you wonder if you can get your five bucks and your time back after viewing it.

Not as good as the original "Little Blue Truck"Â Little Blue Truck Board BookÂ but our child still really enjoys this story.

This book was ok, but not nearly as good as the original. If you liked the original, you will like this one - but just not as much. Thats all!

My 20 month old son LOVED the original. In fact, one of the first things he said was "Beep Beep Beep", so I was super excited to get this one as a follow-up, but I was disappointed. It doesn't flow the same and while I can't put my finger on it... it's just not as good. And the true judge (my son) always passes over it. It doesn't seem to engage him either. I wouldn't recommend this one.

We read the negative reviews before getting this, but didn't believe that this book would be so much less fun than the first book. My son loved the Little Blue Truck, and it was a book both myself and my wife enjoyed reading to him. This book is boring, the illustrations are not as charming, and I'm not sure what the moral or message is supposed to be. I think the message the author intended was "you city folk need to slow down and stop rushing everywhere, and stop being so rude and pushy." But each time I read it, I am left wondering, "why don't they just put a traffic light or stop-sign at this intersection instead of letting a random truck turn all the city traffic into a parade." I would skip this one if you like the original.

We were very disappointed in this follow up book to Little Blue Truck. The pictures are much darker and almost depressing and the text does not flow well at all. My son, 18 months, apparently has a similar opinion in that he loses interest after the second page and runs off to find a different book. The first book continues to delight him though. I can read that one 3 or 4 times in a row (I have it totally memorized) before he is ready for a different book.
