Alligators And Crocodiles

Synopsis

A pair of eyes lurks just above the water's surface. Is it a crocodile or an alligator? Packed with beautiful and engaging photos, kids will learn all about these two reptiles and find out what makes them different. This Level 2 reader provides both accessible and wide-ranging text to encourage the scientists and explorers of tomorrow!

Grade Level: Kindergarten - 3

Customer Reviews

Bought this as a Christmas gift for our grandchild to go with a stuffed alligator we also bought on . Both are perfect gifts for our little granddaughter. She wanted a live alligator, but will love this book and the stuffed one.

This book has great pictures and offers fun facts about crocodiles and alligators that my 3-year-old has now memorized. It also offers a great explanation of the differences between alligators and crocodiles, and also describes other crocodilians as well. Great vocabulary in the book, and very informative. It offers labels describing the specific types of alligators and crocodiles, and it defines the words that a young child would not know. This book is perfect for a toddler or elementary student fascinated with reptiles.

My son LOVES this book and has learned a lot from it. He loves to tell anyone who will listen all about alligators and crocodiles. Money well spent!

Love it. My 4 year old son can't put it down. It has beautiful pictures and lots of interesting facts including several different kinds of crocs.

My 4 year old granddaughter loved this book. She has had it read to her so many times she knows all the facts.

Got this as an end of school year presents for my sons K classroom and the teacher and students loved it!

Nove book with plenty of pictures and illustrations. Too easy for a 3rd grader, but still interesting.

My son enjoys reading this book. Now, he knows the difference between an alligator and a crocodile.
