Turtle (Shake & Play Bath Books)

Synopsis

Bath time is play time for baby with this brightly illustrated floating vinyl book. The book is named for the Turtle that appears on the front and back covers, but when toddlers open this book they'll see six more colorful creatures on inside pages--every little water-dwelling animal labeled with its name. Turtle's companions are a starfish, seahorse, angel fish, and three others. And when Baby picks up this book and give it a shake, he'll hear a cheerful rattle. This is one of four titles that Barron's offers in the Shake & Play Bath Book series: Duck, Fish, Turtle, and Whale. Each book comes in a clear vinyl package.

Very cute, holds up to a strong toddler and he enjoys it at bath time. We don't read in the bath but he looks at the pictures, dunks it and plays with it. I've put this in the dish washer to clean it holds up fine. One thing I learnt the hard way is don't give them books in the bath when they're too young. They don't recognize the difference between bath books and regular books. LO sent a few our regular books for a 'bath' because he didn't understand why some books could come with you to the shower and the others can't.

Okay, this is certainly not the most complex of books, but we love it just for that reason. Our son is now 16-months old and we have had this (and the Duck Shake & Play book) in the tub with him for

the past couple months. We like that there are no words, just pictures, and that we can do simple questions and simple commands with the book (e.g. Where is the turtle?). The price and right and I say the more books in the house, the better! Even in the bath!

Great soft book for teething child, I love that they clean easy and can hook to stroller. I would buy more because of the opening to hang to car seat or stroller.

Just pictures and names of animals, no story. Small book average quality. Nothing special. Prefer Seaside Bath Books.

These little bath play books are adorable, our grandson loves them, fast service, many thanks, highly recommend.

"Great book for babies to play with, can easily be held or chewed as my grandson does!

Out of all of her toys, my daughter always goes for this book.

This is literally for a one year old and not much older.
