The thrill of a lifetime: We skype our 20 month old grandchild. He sits alongside his dad who guides the toddler's hand to play the melody while (dad) plays the accompaniment. We all sing along to the songs we learned as children. The next joy will come when the grandson is able to play and sing all by himself - - - which may not be too long since the arrangements are pretty simple. A nice assortment of music and lyrics we had long forgotten.

This is a great book for fun easy songs. Has a lot of the classics. I am a beginning piano player and I can play quite a few of the songs and sing along with my little one. I would buy this book again for sure.

This book includes nearly all the old nursery rhymes plus many other songs children like, plus the accompaniment is very simple for any beginning pianist. A great find - it was just what I was looking for.

This is a great book- full of easy to play sing-along songs. The songs are simple to play, and the book is full of all the songs we know- plus quite a few we haven't heard of. My toddler has really enjoyed our music time with this book.
