Customer Reviews

I am a high school teacher and use these songs in my curriculum for review, introduction of vocabulary and grammar, and for enrichment. I would recommend to all Spanish teachers to purchase this tape kit for the classroom. Actually, one of my students liked the cassette so well, he stole it from my file cabinet while a substitute teacher was filling in. My students especially enjoy Quien nos Salvara, which teaches the names of continents and oceans while dealing with the problem of world pollution at the same time. Other favorites are Cupones, which teaches about money, Animalitos Son, which reviews the alphabet with a different animal representing each letter, and Androide, which deals with telling time, from the point of view of an Androide who has no time for life.

the material is outdated. the songs are a combination of rap and techno-style music (perhaps late 80's?). not fun to listen to.
