Sibley the horse is one of the hardest workers on Stony Meadow Farm. When Tractor Mac, a shiny new tractor arrives he is worried that he will be replaced. Farmer Bill does use the tractor for many tasks but when Tractor Mac gets bogged down Sibley pulls him out showing that there is still a need for him! Cute story. Fans of all things farm related will enjoy this book. There are several others in the series to look out for as well.

Grandson's first Tractor Mac book which i didn't give him. I saw how much he enjoys this book that i boughta copy for a baby shower gift. The invitation asked for everyone to bring a book that the little boy will carryaround with him and treasure.

We met Billy Steers a couple years ago and bought several Tractor Mac books. They've been a family favorite ever since. Whenever my grandson, now 6, visits we simply MUST read a Tractor Mac story or two. The stories are fun and creative and the illustrations are beautiful. A MUST-HAVE for your child's book collection!

I absolutely love these books... the only reason they don't earn a 5 star for me is because the actual pages are not quite the quality I would expect from the quality of the writing and the illustrations. (Apology and correction - I was wrong. The pages may have felt thin, but my son literally read this book every night for a year and it has held up very well!!! ) My husband, father and father-in-law might all love this book as much as my 2 year old! It is adorable and according to them quite accurate. Tractor Mac is the real deal for future farmers and tractor lovers.

With Tractor Mac the child learns real facts. This one tells about the history of farming. The Tune Up story has parts names. The art is exceptional, the colors bright. This series is worth an investment if you have a tractor enthusiast. The little lift the flap book is super for toddlers too. The flaps don't tear, there are surprise chicks. This is an all round good buy. He has an airplane one too if your child likes planes.

My 2 year old little boy loves this book. I, myself, felt that it was just getting good and then the story ended...Wish it had a few more pages to the story. But he's (my son) the critic that matters. :)

What a wonderful story!!! Just long enough for bed time and not to long for Mommy to fall asleep to! If you grew up with Johnny Tractor story books, this one takes the place on a "Red" farmhouse book shelf.

I bought this for my 3 yr.old grandson for Valentine's Day and he loves it...cause it has 2 things he really loves a horse and a tractor.... I will buy more of this series of books in the future....Thanks...
