## Customer Reviews

This is a good book about wonder woman for young readers. I bought it to read to my 3 year old, but I am hoping when she learn to read she will enjoy it then as well. The language is simple, but the story is interesting. It would be good for either girls or boys. I feel you can't go wrong with a pretty princess who is smart, kind, and who can kick some serious bad guy booty. I'm a big wonder woman fan and I like the way this book presents the character.

There are so few positive role models in books for young girls so I love that our daughter started getting interested in super heros vs princesses recently with the help of this book. She's 4 yrs old :)

Similar to th other WW book available here in the recommendations. Short but fun, perfect for bedtime. For my 4 year neice. Full of messages for female empowerment. She'll be able to read it in

her own pretty soon!

Great book to let your little girl know girl heroes to

I miss the old style Wonder Woman.

My first grader loves this book!
