Customer Reviews

The pictures are very detailed, and there is a nice description of each dinosaur, but there are only 16 pages to color. This is definitely only for an older child, and even then, I found it overpriced given the amount of content versus the other 3 coloring books I ordered at the same time. I would not order it again.

I bought this for my three year old and she has shown zero interest in it. The book is very thin and the images are fairly boring for a dinosaur book. They are also very detailed, so probably would be good for a middle school kid. Overall it wasn't what I expected and it sits unused.

I have no idea if the dinosaur names are accurate in the book, but I know the kids I gave it to as a gift loved it. Had no problems with seller, and shipping was fast :)

This is such a great coloring book. My boys are older but they still love to color and it gives a great description of the dinosaur on each page. Very informative and the detail on the pages is amazing. Not your typical coloring book. More for older kids and even adults who love to color.

I had hoped that it would have been thicker. My kids loves coloring and this book is great but such a short book. Wish it was thicker.

The Dinosaurs look really real, not cartoonish. Nice book. I purchased large crayons (easier for little fingers) for my friend's almost 3 year old. He loves dinosaurs. He'll love this coloring book.

Very detailed which makes it a little challenging to stay in the lines, but I'll be honest that my toddler loves it and has no clue what lines are. We had fun coloring it.

I bought my daughter "The days of the dinosaur" coloring book and she liked it so much we got her this one too - She loved it!!
