How Do Dinosaurs Love Their Dogs?

Synopsis

Dogs are a dinosaur's best friend! Anyone who loves dogs will be highly entertained when America's favorite little dinosaurs learn how to take care of their muddy pups and handsome hounds. From bathing and feeding to walking and tossing balls, riotous fun ensues as youngsters learn patience and gentleness while sharing time with their beloved pets. From the bestselling duo, Yolen and Teague, this is the perfect gift for little dinosaurs (or big ones!) who cherish their dog or will soon have a furry new best friend in the house.

Customer Reviews

Just got this one in the mail the other day to complete our how do dinosaurs collection. We have all 10 now; we really enjoy this one. It flows well and follows the same format as most of the others; starting off asking do dinosaurs do this and this, things that are funny and ridiculous, followed by NO! They do this and this, great way to teach young children how to love their animals.

This is an awesome book to have in your collection. I bought this for my 4 boys 8, 2, and twin 1yr olds. They all love for me to read these books at night time, but this book was rather helpful. The book at first shows how not to treat a dog then it shows how you should be treating your dog if you

love it. My 8 yr old realized how he was not treating our dog right, and made a decision to treat him well by walking him. My 2 yr old now wants to feed the dog, and well, the twins still wants to lay down on the dog bed. Awesome book if you are thinking of getting a dog for the kids, nice whimsical way of how they should love their dog.

This books fits in well with all of its predecessors. It is a cute story with lively, beautiful pictures. It is a sturdy hardback for little hands.

Our twin daughters were about 1 1/2 when we got them this book and they still like it at a few months past 3 years old. They are into the usual girly stuff but dragons and dinosaurs top the list, so we bought this book for the dinosaur aspect. I like the cadence and rhyming and the lesson taught though I think that still goes over their head a little but we do have two dogs and two cats and hope this will sink in a little. We would like to get more of the "How Do Dinosaurs..." books but we don't want to put all our eggs in one basket, I think any of these books would be a winner. If you've dinosaur addicts like I do, add this one to your dinosaur book collection.

We love the Dinosaur series by this author and illustrator. This one offers great lessons for a young dog owner--no piggy back rides allowed! It took me a few times through to get the rhythm of the lines. I have How Do Dinosaurs say Goodnight and How Do Dinosaurs Play with Their Friends memorized because they flow so well. This one seems to be more of a stretch, but still a great read!

These are seriously the best books ever! I love how well they're written and my kids adore them! Thank you! It makes reading so much more fun for them!!!!If you found my review helpful, please click the helpful button. I take my reviews seriously and I always read other reviews before buying.If my opinion of this product changes after excessive use, I will edit my review to reflect that.

We have a patient, kind yellow lab and our 2.5 year old daughter was getting a tad bit more wild with her doggy play than we'd like to see; so we bought this book. The results have been clear and our daughter gets it. Side note, I'm a big fan of this series. The only negative is all the dinosaur books I've purchased use male pronouns so I need to change them to be feminine for my daughter (after all, let's not forget half of all the dinosaurs were females!) Good buy, would recommend to any parent with a dog.

The How Do Dinosaurs? books are so great for little readers. We just love them. Our son is really into dinosaurs and we've slowly been buying all of these books. I wish we had them all. The illustrations and the poetry are just beautiful and our son lights up and points to everything he sees in them, whenever we read them. Really happy with purchase.
