## **Customer Reviews**

A while ago my son and husband were mesmerized by a show on the smithsonian channel about the prehistoric titanaboa. I've had to hear every detail about the atrocious creature ever since. If only Jack Patton could've seen the look on my son's face when he realized who the villain in the latest Battle Bug book was! I'm sure I've written a glowing review for at least one of the other books but had to do so again for this one because it was just so perfect for one little reader. If I were reviewing from my point of view, I might knock off a star for similarities in the story lines of all the books but I'm not the target audience and my 4 and 6 year old boys seem to love every one of them. Also, if Magic Treehouse can keep the attention of it's young reader for 55 books then I think Mr. Patton might be able to do the same!!
