Age Range: 4 - 8 years

Grade Level: Kindergarten - 3

## Customer Reviews

As a teacher and a mother of a son with a reading learning disability, I highly reccomend this book. The photographs engage my son, and encourage him to read the text. He has read the book everyday since he received it.

My 2-yr old is fascinated with motorcycles. So, I looked everywhere for a children's motorcycle book. This book is great. just small enough and simple enough to hold his attention.

this book was a disappointment. format was cheap. items like this would rot on the shelves of a bookstore as if you actually saw what you were purchasing, you wouldn't.

My 2 yr. old Godson is obsessed with motorcycles. I bought this based on the reviews and sampling for his birthday. Well, he loves this book! The photos are great, it covers all riding types, and is a nice quick read. I recommend it for anyone w/ a boy who loves motorcycles!

Excellent pictures and nice story. (I should know, I have read it at least a hundred times to my two-year-old son at his request.)

Not much to say here. My son has loved dirt bikes since he was four months old. I swear to you, lol. He's now 8 and still likes reading this book--especially now that he reads for himself.

This book is for younger kids than I expected. Its barely more than a picture book. I was looking for an informative book for a 10 year old. This appears to be for a 5 yr old.
