This is a "book" that's actually a case to hold 9 VERY small board books (maybe 2" x 2"?) Each book only has about 4-6 pages. If you flip the books to the back, they together all make a puzzle of a tractor picture (hope that makes sense!)

What you need to know: I feel that the quoted dimensions are misleading. The 9" x 9" measurements are for the 'shell' cover, as the posted photograph. Open it up and you see all the '9 chunky books' sitting SIDE BY SIDE, inside a 1/2" wide cardboard framework. So, each 'chunky book' only measures around 2 1/2" x 2 1/2"- That's probably smaller than your palm- pretty tiny !

This set of books is perfect for any child who is fascinated by machinery. My son, age 2.5, absolutely loves these books! He chooses his favorite ones for me to read to him each night. They are short and educational. On a side note, it's nice to let him make the choice of which ones he'd like to have me read to him- We have a simple counting lesson at the same time..."choose 3 books you would like me to read to you". I would most definitely purchase these for anyone I know that has small children interested in farm equipment or machinery. Adorable!

This little book is the perfect little add-on to a baby gift, for a special baby boy. Men in the family love tractors, so why not start them young.
