## Customer Reviews

I am working my way through this wonderful series of biographies issued by DK. As I have said in previous reviews, the editing could be a little sharper, but otherwise they are completely wonderful and enjoyable and informative books to read. I always find something about the person that I hadn't known before. The only nagging beef I have about this particular book is that the author always calls the President Jack. Most likely the idea was to make it more personal but I find it only a little bit short of impolite and disrespectful of the office. I think that, particularly, since the book is directed primarily towards young people that the author should not have taken such liberties.

it is a nice book if you want a short biography. I would recommend this book to anyone interested in John F Kennedy.

You can't go wrong with ANYTHING from the DK series. I discovered them in guide books, but this series is quite interesting as well!

It has a lot of great info about him and I learned new things. Also his Memorial Day is coming up soon!

Loved it
