You Gotta Be Kidding! The Crazy Book Of "Would You Rather" Questions

Synopsis

Why should grown-ups have all the fun? From the author of *Zobmondo!!*, the adult party book of outrageous choices, comes *You Gotta Be Kidding!* Adapted from the hugely popular board game, this interactive and completely engaging book serves up hundreds of bizarre, embarrassing, sometimes ethical and sometimes stomach-churning dilemmas that kids will love to pose to their friends and siblings, whether in the backseat, on a sleepover, at a party, on a rainy day, or during a lull in the lunchroom (if you dare). Ponder the icky: Would you rather eat 10 pounds of cheese -OR- a bucket of peanut butter with nothing to drink? The exponentially icky: Would you rather drink liquid found leaking from a garbage can -OR- chew on a hairy clump found between the cushions of an old couch? The fantastic: Would you rather be able to talk with all animals -OR- be able to understand all languages? The priority-testing: As a soccer player, would you rather mess up and score a goal for the other team but still have your team win -OR- play your best game ever even though your team loses? And the hair-raising: Would you rather swim across a river that is filled with crocodiles -OR- spend the night on an island where man-eating tigers live? Fascinating sidebars throughout are filled with interesting ancillary information the nature of drool, left-handedness vs. right-handedness, what's dangerously filthy and what's just gross, why we blush when we're embarrassed that will help kids make their choice.

I work as a counselor at a school. This book is a hit whenever & with whomever I read it too. Each page has a question, WOULD YOU RATHER..... then there are 2 choices. It's particularly fun in groups, to hear the different answers and reasoning. My only complaint is that I need to choose carefully which ones I read aloud. Many references to eating rotten food, living among rats, drinking sweat, ick! Some questions are too disgusting to discuss in a group and some may hit too close to home for the lower socioeconomic students. If you weed out the inappropriate ones for kids, the rest is a riot & fun for all. There's also fun facts at the bottom of each page. I would recommend this for ages 7-70. Well, maybe not for grandma.

I purchased this for my 10 year old for Christmas. He loves it! He and his friends are constantly asking one another made up 'would you rather' questions. Now, they have 400 more to ask. I really like the facts at the bottom of each page, without those, this book wouldn't be as much of a learning experience for kids. It really gets them thinking, talking, learning and laughing!

I make my living as a substitute teacher. I use this book at the end of day as a reward for good behavior--I'll announce a scenario from the book and have the kids either raise their hands for their choice, or go to a side of a room depending on what their answer would be. Kids from K-7 love it and always ask me if I brought the "Would you rather book" when I come. There are milder choices for the younger kids, and absolute gross out choices for the older ones to pick

This box is really hard to come by at our local bookstore. I ordered for my second grader as she saw it in school. The book is small (about 4-6inches) but very thick. It has given her hours of entertainment already.

The book itself was entertaining to my nine-year old. The poor review is because the pages came loose from the binding during the first read and the book essentially fell into pieces. How disappointing!

Purchased for grandson instead of the card game by the same name because of the educational comments at the bottom of the page about the question. I think it can be used as a game by passing the book around to quiz each other. Gross questions boys will love.

Still enjoying this book after many years. Used to read it to my son; now he reads it to me. I am so sad there is no sequel! Absolute can't miss gift.

If I could give 0 stars, I would. I bought this book after seeing some of the scenarios on a Denny's kids menu. We had fun with those, so I figured the book would be more of the same. I was wrong. I had to skip over 90% of them because they were just plain disgusting. I wouldn't even recommend this for older kids. It's not "fun" at all. Very disappointed.
