## **Customer Reviews**

This book is a singing story book. As are most if not all of the Classic Books With Holes. Very enjoyable for little ones. My grandson who is only two years old sings along with the story and loves these books. I would recommend any of this series.

My kids absolutely love this book! It's a bedtime favorite. The cut-outs keep their attention and the rhythm of the verses help them memorize the words. I'll find them singing this book throughout the day. It's great when they love books this much!

My daughter loves this book. She acts out the story by washing her ears, combing her hair, twirling her frock, "twinkle toeing" and dancing. It's a fun book for toddlers and older.

This is such a great little book for singing. The children really love singing this song. I used it for my rainforest unit.

Cute book. The kids enjoy the cd too, they get tired of hearing me read.
