## Customer Reviews

Debussy was a French composer who wrote some wonderful piano music. When he was 7 years old he started taking piano lessons and was admitted to the famous Paris Conservatory when he was only 10 years old. He became very interested in composing music and experimented with new ideas and sounds. Debussy loved the sea and water, and many of his pieces have something to do with water. Most of the titles of his pieces are very descriptive and suggest what the piece is about in "Gardens in the Rain" or "Reflections in the Water." You will enjoy the book and listening to Debussy's music. His melodies are smooth and graceful like flowing water.
