Age Range: 3 - 6 years

Grade Level: Preschool - 1

Customer Reviews

One of my daughter's favorite books. A great touch and feel, the honey is actually sticky. Has held up very nicely as well.

We have this and the other Pooh touch-and-feel board book from the 2011 movie version, and they're both great. Each page features a new touch-and-feel object, and my two year old still loves to touch each one. My one year old also loves the pages because of the colorful illustrations and recognizable characters. The books have held up very well under extreme conditions (two teething boys!).

This book is very cute and is the perfect length for a toddler's bedtime. Some other Pooh books are just too damn long when you are on book #3 and it's a half hour past you started putting your kid to bed. That being said, my son loves it and wants to read it all the time.

My daughter is very strong willed and insist on calling this bear Elmo...however, she knows the real Elmo. So I read the stories as Pooh-Elmo and she loves touching all the 3D parts within the book. She loves that the furry party of Pooh feels similar to the real Pooh toy and she thoroughly enjoys the story. At first she hated that the honey felt sticky and was afraid of it, but now that she understands the meaning of the word and knows what stickiness feels like she enjoys feeling how sticky the honey feels. We've had this book for a while and the stickiness hasn't faded. Great thick page board book with tactile features.

This book is adorable. The story is sweet and simple and the textured surfaces are very fun for my 2-year old g-daughter; especially the sticky surface for the honey on the last page. Each of the main Pooh characters make an appearance in the story.

My son loves this book. Especially the last page with the sticky honey. He runs around the house trying to find someone to read him the "sticky" and "honey" book. If your child likes touch/feel books, Winnie the Pooh, or both, this is a great addition to your book shelf.

My sons love all things Winnie the Pooh so when I saw this book I had to get it for them. I didn't read the description before buying it so I was pleasantly surprised to find that it's a touch and feel book. My 16 month olds enjoys the sensory experience they get from the book and especially loves the last page with the sticky honey. This book is worth buying and it's at a great price too.

This is a Birthday for my granddaughter. I have yet to give it to her. I know she will like it because of the feel pages. That is one of her favorite things to do with me! We read the feely books all the time.
