Cranes (Mighty Machines)

Synopsis

More fabulous huge machines for the kids who love them. Children always get excited watching cranes reach for the heights. Knowing that one person is perched high atop the crane only adds to the thrill and sense of adventure. Cranes are used for lifting almost any heavy load and moving it to a height. They are used to make buildings, bridges and ships. Some are used to stack containers onto ships, trains and trucks. A floating crane might be used for salvaging a sunken ship, and an aerial crane is a specially fitted helicopter that can rescue someone or drop emergency supplies into a disaster area. The Mighty Machines series features vivid color photographs of enormous machines as they dig, dump, load, pull and lift. Children will thrill at the size of these behemoths and enjoy seeing these vehicles strain under the weight of such tremendous work. Vivid color photographs of these mechanical marvels at work jump off the page. In large type for young (and old) eyes, the machines, their parts and their uses are concisely described. Glossaries explain essential terms, and suggested activities add to the fun. The big format and vibrant design make these books perfect for kids to read alone or share with a friend.

Book Information

Series: Mighty Machines

Paperback: 24 pages

Publisher: Firefly Books (July 1, 2010)

Language: English

ISBN-10: 1554077044

Customer Reviews

It was a great book for explaining cranes. He had wanted a RC Crane for a long time so I got him the book and a crane. It was a great Christmas gift, he loved both of them.

My 3 year old has us read this to him about 10 times a day. Our whole household now knows all the types and parts of cranes! He loves this book!

A favorite for my 4 yr old twin grand babies.

My 5 yr old grandson loves it.

4 year old loves this book. Pictures are large, detailed and great quality. it is a good size book, and my 4 year old really enjoys looking at the pictures, and learning all about the crane trucks.

Love the real pictures. Great read for a young petsona who is really in to heavy machines. My 3 year old is in love with this boo.

Great book that my 3 year old loves!!! Any little one who loves construction will love this book!

My 6 year old LOVES this book. Great info and pictures.
