Grade Level: 3 - Preschool

## **Customer Reviews**

I got this for my 2 year old son. My husband reads to him every night and this is one of his most favorite books! It is adorable and he has memorized it! The book is sturdy and has held up to regular use. I would recommend it to any little tot who is into construction equipment. Great buy.

My two year old grand children, a boy and a girl, both love this book. They want to read it over and over. I believe it will be one of their favorite memories of books from childhood as they grow older.

This is our favorite book on the ipad. The pictures are the best and realistic for true truck enthusiasts. The book goes through a day talking about various trucks - starting in the morning and ending at bedtime. It is not a story as in there is a plot but rather an introduction to different types of trucks and their various jobs. My three old really likes it and I really like that it is formatted well for the ipad, which is perfect for traveling. Happy reading!!

The pictures discuss different types of construction equipment. Not much of a story. I was disappointed as many reviewers said it was a charming story and loved by their children. I didn't like it!

Only bad thing about this book is my grandson makes me read it a 100 times a day. He just loves trucks and this book has beautiful pictures and a sweet story.

My son absolutely loves this book. If your son/daughter loves trucks, this book is a great one to read before bed. It is easy to read for parents/grandparents/other adults and is a great book for kids to start reading.

This is one of the bedtime books our son always has around. It's a great book and my husband and I don't get too bored with reading it night after night.

This product was fantastic, my 2yr old son absolutely loved this book and wants to read it every night before bed!!
