The Tiger Cubs And The Chimp: The True Story Of How Anjana The Chimp Helped Raise Two Baby Tigers

Synopsis

When two baby white tigers on an animal preserve get into trouble during a storm, they are taken in by a human animal worker named China and her helper, a chimpanzee named Anjana. China and Anjana soon become the tigers' mothers, playing and cuddling with the cubs as they grow big and strong. Set on a preserve for endangered animals, The Institute of Greatly Endangered and Rare Species (T.I.G.E.R.S.), Anjana's amazing true story showcases her surprising love for two adorable tiger cubs.

More often than you might think, animals you would never think would become friends, become friends. This book tells the story of how Anjana the chimpanzee helped raise two tiger cubs. Animals relate to each other in ways we do not fully understand, and there is a good chance these animals will remain lifelong friends. The owner of these animals, Doc Bhagavan Antle has done his best to provide a positive environment for these animals to thrive in. You will be delighted by, and thoroughly enjoy this engaging story, and so will your children. The best to you, now and forever, Mitra, Shiva (the tigers) and Anjana!

My favorite 5 year old boy loved this book. The story is endearing, the pictures are so loving and it

inspires some great questions.

I have purchased three of these books with Apes and other animals. I love them. The pictures are enough to make anyone smile. They are written on a level that anyone can enjoy.
