## Customer Reviews

Great book for my 10 year old boy reluctant reader. Just the right amount of text with illustrations and not a complicated read. The What is, Who is etc. series is very popular right now and great for those readers who aren't interested in fiction books. This book was very informative about Super Bowls over the past couple of decades. My son and I read it together and I learned things I didn't know either!

Great Easy reader!

My little brother loved it! Got here faster than I thought.

If your child loves football, they will love this book. This was the first chapter book my 6 year old has finished. This book kept his interest. He loves learning football stats and players. And as a bonus... he learned roman numerals!

Well it was a educational book,and I loved it. It was a little bit hard to understand but the facts were amazing

it is a fun book because it tells you a lot about super bowls that have happen years before .

Love the series of these books! Well illustrated and very well written. Can't wait to read it when my son is finished with it!

This is another one of those great books that got my 9 year old son to actually sit down and read a book!
