101 Amazing Card Tricks

Synopsis

Have nothing but a deck of cards? With this book you'll soon be dealing out playful poker, and four-ace tricks that will make everyone say: "How did you do that?" If you can shuffle a deck, you can perform "jacks be nimble," "about face," "number nonsense," and dozens more. Clear illustrations demonstrate how to execute each move precisely. A chart gauges the difficulty of each trick.

Customer Reviews

This book show those tricks you always wanted to do but you never had someone to teach you! Stunts like guessing cards and false shuffles are explained in this book with illustrations. These 101 card tricks are also rated by mastery level in the index, to make you advance slowly in your skill level. An excelent book. I also recommend "World's Best Coin Tricks", also by Bob Longe.

Basically, it shows you a lot of cheap tricks that you yourself could have figured out. However, if you are starting out and looking for a couple good tricks it might not be sooo bad. How about this for short, a magician probably wouldn't buy this book.

For adults, you might learn a handful of things. Kids might get more excited over this book, though their little hands might not be able to handle it. Not bad for its price and you can just pass it along to the next person.

This book does have some good tricks, but not really for serious magicians. You may go in for other titles like Royal Road to Card Magic, or Expert Card Technique, if you want to learn something worthy.
