## **Synopsis**

"Shoes is loosely organized into categories such as working shoes, dancing shoes, shoes for ice or snow, and anytime-at-all shoes. It's an interesting way to take an armchair tour, and could be used to spark a geography, social studies, or multicultural unit." --School Library Journal.

## **Customer Reviews**

I just got a copy of this book, and I was totally impressed by it. The pictures in the book are amazing, of the highest quality, and they are taken with an excellent eye. The book contains snapshots from shoes around the world, showing the people that wear them and what they do when they wear them. Many cultures and peoples are represented here, and it made me want to go out and see these places! Definitely a must have book for every child. (and every adult with a child's sense of wonder)

We made a classroom book of the shoes we wore over the school year and compared the types of shoes we wear in a large urban area to those worn by children in other places. The children

identified all the colors, short boots like mine, etc. They found of lot to relate to in the book. Plus it was the right size for two friends to "read." Did I say they told a story about each picture - it is a welcome addition to our library.

Although marketed to the K through second grade crowd, my two year old granddaughter loved the book. Each page has a photo of people from around the world wearing shoes. Every page has a different type of shoes. The captions are very simple and not wordy so she loved my reading it to her.

My 17m old son loves shoes and this book was perfect for him. He flips though it himself and likes us to read it to him. The pictures are very colorful and from all parts of the world. The back of the book includes information on all of the shoes, country, origin etc.. A fun educational book.

"Where ever you find them, shoes come in twos!" My daughter has loved this book ever since she turned 1 and still loves reading it almost daily. Great pictures, great rhyming words.

I love this book as it has great pictures and shows cultural diversity! Also, check out Mommy's High Heel Shoes- sweet story about all the shoes Moms wear!

This was a well put together book by Ann Morris. The pictures and topic are wonderfully multicultural. The children loved the photographs.

My son is 18 months and he loves this book. He loves the variety of shoes and the diversity in the book. It's an excellent book!
